

## PARAMETERS

| MODEL                |                | MODEL ALUMINUM CHANNEL                  |
|----------------------|----------------|---|
| Extrusion Technology |                | Hot-Chamber Casting with Heat-Treatment |
| Minimum Quantity     |                | Quantity of Individual Loads            |
| Working Width        |                | 1000mm                                  |
| Min Supply           | 100            | 1.000.000.000                           |
|                      | 1.000          | 2.000.000.000                           |
|                      | 10.000         | 10.000.000.000                          |
| MESH                 |                | Substitution Paper                      |
| Working Speed        | Value          | Value in cm/min/revolution              |
|                      | 100.000.000    | 100.000                                 |
|                      | 1.000.000.000  | 1.000.000                               |
|                      | 10.000.000.000 | 10.000.000                              |
| Max. Working Width   |                | 1000mm                                  |
| Working Condition    | Turning        | 100.000                                 |
|                      | Temperature    | 100.000                                 |
| Operating System     |                | 100.000.000.000                         |
| Interface            |                | 1000.000.000                            |
| Display              |                | 1000.000.000.000                        |
| No. of Channels      |                | 100.000                                 |
| Usage Interval       |                | 100.000.000.000.000.000.000.000.000     |
| Power Supply         |                | 1000.000.000.000.000.000.000.000        |
| Flow Capacity        |                | 100.000                                 |
| Environment Index    |                | 100.000.000.000.000.000.000.000.000     |
| Machine Footprint    |                | 1000.000.000.000.000.000                |

| MODEL                 |                | MODEL ALUMINUM CHANNEL                  | MODEL ALUMINUM CHANNEL |
|-----------------------|----------------|---|------------------------|
| Extrusion Technology  |                | Hot-Chamber Casting with Heat-Treatment |                        |
| Minimum Quantity      |                | Quantity of Individual Loads            |                        |
| Working Width         |                | 1.000.000                               |                        |
| Min Supply            | 100            | 1.000.000.000                           |                        |
|                       | 1.000          | 2.000.000.000                           |                        |
|                       | 10.000         | 10.000.000.000                          |                        |
| MESH                  |                | Substitution Paper                      |                        |
| Working Speed         | Value          | 1.000                                   | 1.000                  |
|                       | 100.000.000    | 100.000                                 | 100.000                |
|                       | 1.000.000.000  | 1.000.000                               | 1.000.000              |
|                       | 10.000.000.000 | 10.000.000                              | 10.000.000             |
| Max. Working Width    |                | 1.000.000                               |                        |
| Working Condition     | Turning        | 100.000                                 |                        |
|                       | Temperature    | 100.000                                 |                        |
| Operating System      |                | 100.000.000.000                         |                        |
| Interface             |                | 1000.000.000                            |                        |
| Display               |                | 1000.000.000.000                        |                        |
| No. of Channels       |                | 100.000                                 |                        |
| Usage Interval        |                | 100.000.000.000.000.000.000.000.000     |                        |
